INDIGENOUS STUDIES

CHOIR BOY LUCKY
Andrew Balfour's story is an inspiring and triumphant one. Adoption at two months old to a loving family gave him a happy childhood. Then, after learning as a teenager that he was Métis, he struggled through years of rebellion, homelessness and served a short prison sentence. Once released he turned his life around though song and continues to inspire and be inspired through a fusion of European and Aboriginal culture, the duality in himself, two strong bloodlines.

LAND OF OIL AND WATER
Two Canadian Aboriginal communities fight for their traditional way of life amid the most destructive oil recovery operation ever known. This sensitive and nuanced documentary follows the journey of Warren Cariou, a writer from Northern Saskatchewan, who learns that oil companies from Alberta are expanding into his homeland. Warren travels back to the Cree and Dene community of La Loche and to the nearby Métis village of Buffalo Narrows to ask the people what they hope the development will bring in the future, and also what they fear about it. He then travels across the border to Alberta and speaks to the Native people there who have lived with the oil sand developments for more than thirty years. The film provides a personal and compelling portrait of Canadian Aboriginal communities and their struggle to preserve their way of life in the face of rapid and relentless change.

ONE RIVER MANY RELATIONS
Exploring the Athabasca Oil Sands from a marginalized and often silenced perspective, Fort Chipewyan, Alberta, is a remote community that is fighting against pollution which they claim is causing cancers, sickening wildlife and degrading their traditional territories. Despite the many documentaries that have been produced about the Oil Sands, Fort Chip has been just a small voice amidst the cries of celebrities, scientists and politicians. This documentary is a collaborative effort of 33 interviews with local Cree, Dene and Metis members, and gets to the heart of their concerns for their families, traditional ways and territories as oil extraction creeps northward.
